

ART & PHOTOGRAPHY ONLINE CONTEST

THEME: Creative Minds During Quarantine

Just because we are all currently trapped during the COVID-19 pandemic does not mean that we all need to stop creating. During this period, we have asked artists to present their works in relation to this situation, always prioritizing the aesthetics, originality and creativity of their work.

The artists were asked to submit drawings, photography and paintings that expressed the impact of the COVID-19 crisis and social distancing measures in their homes and neighbourhoods. We want to thank all the artists who sent us their artwork and that participated in our contest. Above all, stay at home and take care of yourself and your loved ones.

Roses are more attractive likewise girls are also more attractive.. Title: shading
Category: Drawing

Description: Since my childhood I used to do many creative things related to art, I rushed towards completions of art whenever I come to know about them. I got rejected many times but I didn't lose hope. I practiced more every time. As blending plays an important role in drawing and sketching so, my this portrait is all about shading and smooth blending that makes a picture look attractive. This type of portraits can't be completed in just a single stroke you have to do it step by step with patience. I belong to a poor family and I'm not supplied all the things. I used a simple paper and my finger and tissue for blending. As I didn't have thick paper and blending stump.

Title: A Clown Once Again

Category: Drawing

Description: Social media has taken the term "clown" and given it a whole new meaning. On social media, being referred to as a clown means that you are a fool. I find myself making the same mistake over and over again but each time expecting something to change. I keep setting myself up for failure expecting that person to change. This left me feeling stupid, rejected and hopeless. Why do I keep falling for the same thing over and over again? I wanted to tell someone how I felt but I couldn't find the words to describe it. It wasn't until after I created "A Clown Once Again" that I was able to find the words. Creating this artwork helped me to connect my thoughts and feelings to a term that other people would understand. It helped me to express myself while also serving as a reminder. A reminder not to make the same mistake. To try something new. To stop being a clown.
